

March 24, 2008

Dear Mr. Cassar,

On behalf of AED-SATELLIFE and our partners around the globe, I extend our deep thanks to you for your generous gift. The AED-SATELLIFE Center for Health Information and Technology will use your donation to support our Mobile Clinical Library project in Port Elizabeth, South Africa, which will bring urgently needed, reliable, and relevant clinical information to nurses in three formerly segregated hospitals.

The project will provide clinical nurses with handheld computers filled with virtual libraries of health information, essential drugs information, public health management suggestions, and up-to-date clinical information on the diagnosis of HIV-infection and treatment AIDS patients. The project will train the nurses to use the equipment at the point of care and will build the capacity of the hospitals' technology staff to support and maintain the system.

AED-SATELLIFE's programs would simply not be available to the health professionals who need them most if it were not for the support of people like you. I look forward to keeping you apprised of our future challenges and successes. As we confront the obstacles to achieving global health, I thank you again for your faith in our mission and your support of our work.

Best regards,

Andrew Sideman  
Associate Center Director
